

Components & Accessories

Retail price list 1/ 2017

	<p>High Line SP 3 L</p> <p>High Line SP 3 L is a unique combination of horns and open baffle on a small footprint of 25" * 16".</p> <p>Each speaker has integrated subwoofers with 900 Watt amplifiers, controlled by a DSP to perfectly adapt the bass response to the room.</p> <p>The rest of the speaker works passive, so that you may use your favourite electronics from 55Hz upwards.</p>	<p>72 000 €</p>
	<p>Master Class SP2.1</p> <p>Masterclass SP2.1 is based on the current broadband speaker from Steinmusic. The heart of the speaker is the 20cm driver with its unusually wide range.</p> <p>In the SP2.1 it works in a semi-open back cabinet and is complimented at the frequency extremes with a larger woofer and a foil tweeter.</p>	<p>21800,00 €/pair</p>
	<p>Masterclass SP1.1 is a Fullrange Speaker that works perfect without any crossover or electric linearization.</p> <p>Efficiency 93dB</p> <p>Frequency range from 40Hz till 20Khz</p> <p>109cm x 28cm x 37cm</p> <p>Available in black or white high gloss lacquer.</p>	<p>9800,00 €/pair</p>
	<p>High Line Phono Pre</p> <p>The Steinmusic Phono Pre is a battery-powered preamplifier which sets an absolute standard in analog performance. It is designed for Moving Coil (MC) systems and is distinctive by amplifying the signal of MC phono cartridges to line level.</p>	<p>11800,00 €</p>
	<p>High Line Phono Pre Pre</p> <p>The Steinmusic Phono Pre Pre is a battery-powered preamplifier which sets an absolute standard in analog performance. It is designed for Moving Coil (MC) systems and is distinctive by amplifying the signal of MC phono cartridges to the level of Moving Magnet (MM) cartridges.</p>	<p>8950,00 €</p>
	<p>High Line Amp1 Integrated</p> <p>The High Line Amp1 Integrated is a 120 Watt per channel amplifier with a completely balanced internal structure, working with tubes and semiconductors. Using the amp is just as much fun as listening to it, as it is equipped with a high resolution TFT display that shows all parameters.</p>	<p>TBA</p>
	<p>High Line Preamp 1</p> <p>The High Line Preamp1 is a preamplifier with a completely balanced internal structure, working with tubes and semiconductors. Using the amp is just as much fun as listening to it, as it is equipped with a high resolution TFT display that shows all parameters.</p>	<p>TBA</p>

	<p>High Line Poweramp 1 The High Line Poweramp 1 is a double mono power amplifier with a completely balanced internal structure.</p>	<p>TBA</p>
	<p>Stateline Amp 2 Extraordinary sound out of a small enclosure. 2x 20 Watt, integrated non oversampling DAC with USB and SPDIF inputs plus 5 High level inputs, American walnut feet. This amp is able to frighten a lot of top-dog amplifiers because of its sheer intensity and power of expression.</p>	<p>1998,00 €</p>
	<p>Signature Version Same as above, but with extra OsCon caps, E-Pads, and Maestro Lacquer treated.</p>	<p>2698,00 €</p>
	<p>Stateline Phono 2 MC and MM, many impedance and capacity settings, external power supply.</p>	<p>998,00 €</p>
	<p>Stateline Phono 2 Signature As above, but with again bigger power supply, Steinmusic InLines, Maestro Lacquer, etc.</p>	<p>1998,00 €</p>
	<p>DE-2 CD Conditioner. Degrades magnetism, electrostatic charge and material stress. For CDs, DVDs and cables.</p>	<p>498,00 €</p>
	<p>DE-3 LP Conditioner. Degrades magnetism, electrostatic charge and material stress. For LPs, CDs, DVDs and cables.</p>	<p>1998,00 €</p>
	<p>H2 Harmonizer Package, a unique achievement to get room acoustics to a perfect state. NEW Series! Harmonizers will come packaged in sets of two, which include: 1x H2a 1x H2b 2x Wall brackets 2x Black Stones Harmonizers are available also in white now.</p>	<p>1498,00 €</p>
	<p>H2 Harmonizer Package as above, but with 2 stands. These stands have been completely redesigned, using a 12mm round polished metal bar and a black lacquered 20mm MDF base with rubber feet that are fine for all kind of floors. The stands get directly mounted into a thread in the bottom plate of the Harmonizers.</p>	<p>1698,00 €</p>
	<p>As above, but as the Signature version with built in additional quantum organizers in each Harmonizer, without stands.</p>	<p>1998,00 €</p>
	<p>As above, but as the Signature version with built in additional quantum organizers in each Harmonizer and 2 stands.</p>	<p>2198,00 €</p>

	<p>HQ Upgrade Module to the Signature version. For those who already have Harmonizers and want to upgrade to the Signature version. Easy to assemble, works for all previous series of Harmonizers in the cube housing.</p>	<p>298,00 €</p>
	<p>Black Stones are small acoustic tuning elements to optimize room acoustics and perfectly match to H2s. New square black version.</p>	<p>38,00 €</p>
	<p>Black Diamonds are similar to Black Stones, but in addition to Black Stones we here implemented another technique also based on quantum physics. So they became much more efficient. We recommend their use in the same way as Black Stones. Already the use of two Black Diamonds for example placed on the speakers will bring you much closer to the music. D 40mm x H 20mm</p>	<p>128,00 €</p>
	<p>Blue Diamonds further increase the naturalness of music compared to the Black Diamonds. At these we could increase the intensity by a factor of three compared with the Black Diamonds. D 40mm x H 20mm</p>	<p>228,00 €</p>
	<p>Blue Sun The most impressive passive item of the Harmonizer System. Use together with the Harmonizer packages, or even without. For best results use 5 pieces per room. Available in dark blue or white D 65mm x H 17mm,</p>	<p>498,00 €</p>
	<p>Blue Sun Signature The original Blue Sun combined with another layer which includes the technology of the Quantum Organizers. Even more powerful than the original ones already are. Available in dark blue or white D 65mm x H 25mm</p>	<p>698,00 €</p>
	<p>C2 is a Harmonizer optimized for the use in the car. We made it small so that it may easily be mounted on the dashboard or another adequate place. One or two units may be used in the back and front of the car. 95x95x25mm</p>	<p>348,00 €</p>
	<p>Black Stars (~Black Stones) are small acoustic tuning elements especially made for the use with C2 in the car. D 25mm x H 12mm</p>	<p>28,00 €</p>
	<p>Black Stars+ (~Black Diamonds) are small acoustic tuning elements especially made for the use with C2 in the car. D 25mm x H 12mm</p>	<p>58,00 €</p>
	<p>Blue Stars (~Blue Diamonds) further increase the naturalness of music compared to the Black Stars in the automotive surrounding. D 25mm x H 12mm</p>	<p>118,00 €</p>

	<p>Speaker Match The perfect match between amplifier, speaker cable and loudspeaker through minimizing the effect of back wave EMF distortion. The Stein Music Speaker Match is an element that helps bring more articulate interplay from amplifier to loudspeaker. Resulting in a more open articulate sound image across all frequencies, which tends to be mellower and less strained.</p>	<p>228,00€ / pair</p>
	<p>Speaker Match Plus An even more perfect match between amplifier, speaker cable and loudspeaker; The Speaker Match Plus is the next level bringing a clear transition and improved noise reduction to the amplifier, speaker cable, loudspeaker system. The results are an even more articulate sound image building on the original design with improved resonance control, in a fine sonically neutral solid walnut housing.</p>	<p>498,00 € / pair</p>
	<p>Speaker Match Signature Using similar techniques as the speaker match plus, however with the best materials available like tightly matched custom paper in oil capacitors and finest African Blackwood enclosures. This wood is normally used in the highest quality woodwind instruments. Specially engraved slots tightly control resonance. All this produces an effect on the sound that is even more precise. The final result is a very neutral and "life like" impression of the music.</p>	<p>1280,00€ / pair</p>
	<p>Onyx DX 3002, a state of the art active digital cable. Provides a completely new reclocking of the digital signal. Oversized external power supply 100x stronger than really necessary. Available for SPDIF signals with directly connected cables and Cynch or BNC connectors. Also available without cables but with balanced XLR connectors for use with AES/EBU signals.</p>	<p>1698,00 €</p>
	<p>Aventurin 6 MC-Cartridge NEW! MicroRidge Stylus, housing made of a Carbon and Mahogany composite. Cartridge is built on a massive cast bronze base, has a Maestro treated wooden housing and is available whether in low or high output version.</p>	<p>4998,00 €</p>
	<p>Achat 1 Alignment Gauge Optimal Tracking Angle optimised for LPs. Offers up to 80% better tracking than standard gauges</p>	<p>58,00 €</p>
	<p>The Perfect Interface π [pi:] Resonance control between a vinyl disk and the platter is essential to achieve the best quality of your turntable. The Perfect Interface consists of handmade Japanese paper treated with SteinMusic Maestro lacquer and works perfectly on all kinds of turntables.</p>	<p>178,00 €</p>
	<p>The Perfect Interface π [pi:] Signature As above, but further optimized with the Steinmusic Quantum solution. Highly recommended. The Perfect Interface with the best value for the money.</p>	<p>248,00 €</p>

	<p>The Perfect Interface π [pi:] Carbon Even better articulation and finesse than the normal version due to a carbon composition concept.</p>	<p>398,00 €</p>
	<p>The Perfect Interface π [pi:] Carbon Signature The ultimate no compromise solution. As above, but further optimized with the Steinmusic Quantum solution. Highly recommended for top audio systems. The Perfect Interface with the highest resolution.</p>	<p>468,00 €</p>
	<p>The Perfect Interface π [pi:] CD Signature The Perfect Interface CD consists of handmade Japanese paper treated with SteinMusic Maestro lacquer, optimized with the Steinmusic Quantum solution. Works perfectly on all kinds CD top loaders and most CDs with a CD tray.</p>	<p>98,00 €</p>
	<p>The Perfect Interface π [pi:] CD Carbon Signature Even better articulation and finesse than the normal version due to a carbon composition concept, optimized with the Steinmusic Quantum solution.</p>	<p>198,00 €</p>
	<p>Super Naturals, audio component feet. These feet are made out of American walnut, acoustically optimized with ceramic elements and vacuum impregnated felt pads. It needs more than 80 steps to build them. They combine fast resonance transfer with a rich and colorful sound. Diameter 30mm, Height 22mm. Set of 3.</p>	<p>198,00 €</p>
	<p>Super Naturals +, audio component feet 30mm high. Available with thread M5, M6, M8 or 3/8" - 16, or without thread. Diameter 30mm, Height 30mm. Set of 3.</p>	<p>268,00 €</p>
	<p>Super Naturals Plus, the Super Naturals concept updated. Two audio component feet made out of Zebrawood combined with one made out of Olivewood and a refined internal structure give an even more open and natural sound. Diameter 30mm, Height 22mm. Set of 3.</p>	<p>368,00 €</p>
	<p>Super Naturals Signature, the Super Naturals concept without compromise. Even more complex with carefully adopted new technologies for the ultimate performance. Diameter 30mm, Height 22mm. Set of 3.</p>	<p>578,00 €</p>
	<p>CD Plus is a treatment for the readable surface of optical discs. It securely removes residues from the production and applies an antireflection coating that helps the laser to read the disk information error free.</p>	<p>38,00 €</p>
	<p>Contact Clear System is a system to clean and stabilize contact points. It consequently isolates areas which are not contributing to a perfect contact and that way leads to a considerably cleaner and more natural sound. Package with cleaning fluid, contact fluid and a set of cleaning brushes.</p>	<p>118,00 €</p>

	<p>E-Pads +S are the next generation self-adhesive elements of 8x15mm working on the level of interaction between molecules. They so profoundly measurable and sonically change material properties in a very positive way.</p>	<p>68,00 €</p>
	<p>E-Pads 11, 22 and 33 have a different sonic signature than E-Pads +S and may be used similarly. They are a perfect complement to the E-Pads +S and may also be used together with these.</p>	<p>48,00 €</p>
	<p>E-Pads 11, 22 and 33+2S are a combination of two E-Pads +S with one 11, 22 or 33 on top of these. These three layer E-Pads are really strong, and get more brilliant to the higher numbers.</p>	<p>148,00 €</p>
	<p>Maestro Lacquer is a unique lacquer made out of entirely natural resins to improve resonance pattern of everything treated with it. Good on Speaker diaphragms just as on PCBs or on CDs.</p>	<p>68,00 €</p>
	<p>InLine RCA Plus</p>	<p>498,00 €</p>
	<p>InLine RCA Signature Silver or Gold</p>	<p>698,00 €</p>
	<p>InLine XLR Plus Silver or Gold</p>	<p>548,00 €</p>
	<p>InLine XLR Signature Silver or Gold</p>	<p>698,00 €</p>
	<p>InLiner Power 2 available with Schuko or US type connectors.</p>	<p>498,00 €</p>

	<p>InLiner Power 2 Signature available with Schuko or US type connectors.</p>	<p>698,00 €</p>
	<p>InLine Speaker Signature, One Pair</p>	<p>1280,00€</p>
<p>InLines for internal use please see separate price list</p>		
	<p>Q1 Quantum Organizer A unique combination of crystals and quantum physics organizing the protons by a field of force with the result of a more organic and realistic sound. Fine walnut housing. Small version especially to be mounted on cables, and to be placed under components, power distribution, etc. 22 x 128 mm, weight app. 50 Gramm</p>	<p>178,00€</p>
	<p>Q2 Quantum Organizer A combination of crystals and quantum physics organizing the protons by a field of force with the result of a more organic and realistic sound. Medium version to be placed under components, power distribution, etc. 130 x90 x 15mm, weight app.150 Gramm</p>	<p>298,00€</p>
	<p>Q3 Quantum Organizer A combination of crystals and quantum physics organizing the protons by a field of force with the result of a more organic and realistic sound. Big version to be placed under components, power distribution, etc. 200 x 115x 18mm, weight app. 350 Gramm</p>	<p>498,00€</p>
	<p>Q1 Quantum Organizer outdoor and automotive version 140 x 15 mm, weight app. 60 Gramm</p>	<p>178,00€</p>
	<p>Q2 Quantum Organizer outdoor and automotive version 160 x 190x 16 mm, weight app. 260 Gramm</p>	<p>298,00€</p>
	<p>Q3 Quantum Organizer outdoor and automotive version 208 x 115x 18mm, weight app. 600 Gramm</p>	<p>498,00€</p>
	<p>Q5 Quantum Mains Conditioner Available as Schuko or US D38 x 80mm, weight app. 90 Gramm</p>	<p>398,00€</p>
